WE ARE ABK GROUP

For more than 30 years, the Abk Group has proposed Made in Italy porcelain stoneware based on continuous research into new expressive trends, attention to detail, and application of the latest manufacturing technology.

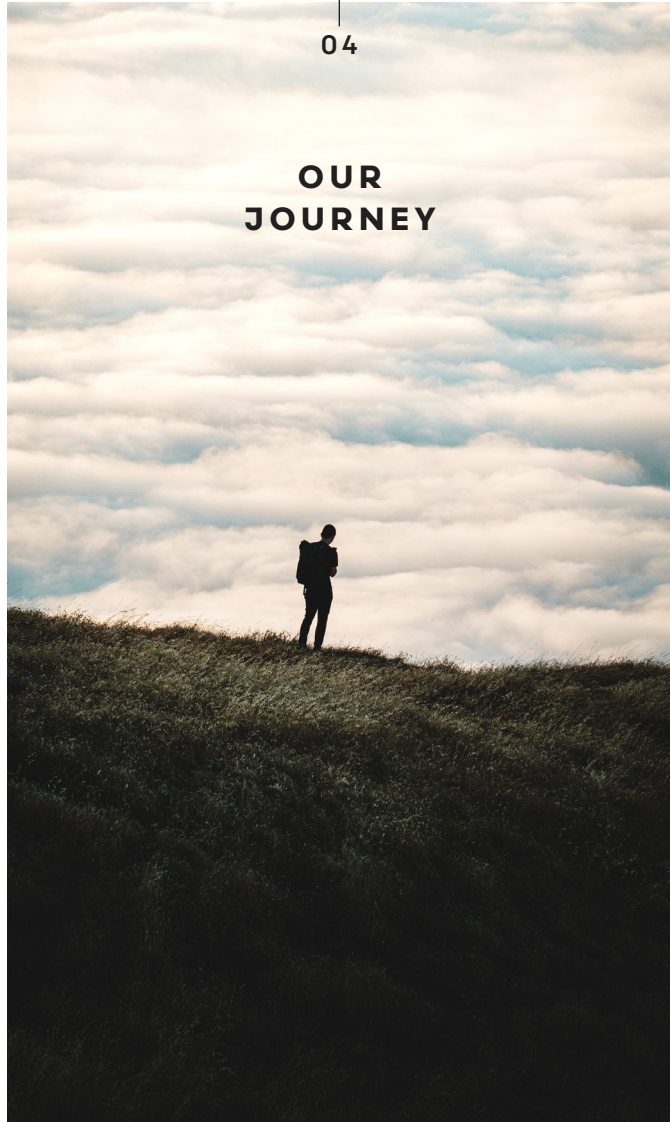

Thanks to these principles and optimisation of the entire manufacturing chain, we can confidently meet even the most complex and diverse design requirements.

Abk Group collections offer surfaces, formats, and finishes that multiply the expressive potential of ceramics to the nth degree.

SUSTAINABILITY

DESIGNING IN HARMONY WITH NATURE

Abk Group contributes to aware and respectful innovation, with a series of practical initiatives aimed at protecting the environment. A path of sustainability that has allowed us to reduce the environmental impact of the production cycle and guarantee ever higher workplace safety characteristics.

2024 SUSTAINABILITY REPORT

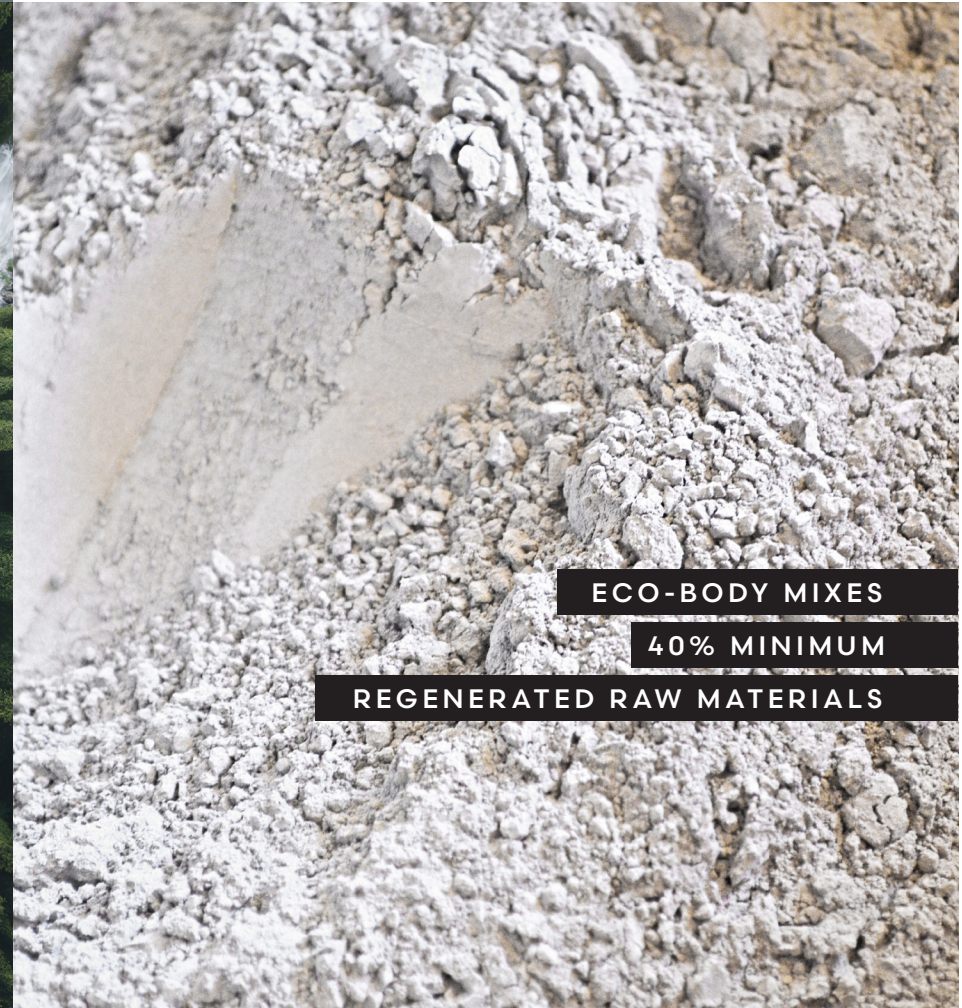

RAW MATERIALS

CIRCULARITY OF RESOURCES

Since 2014, Eco-Body mixes have been introduced for specific products containing at least 40% of materials recovered from ancillary work processes, as certified by Bureau Veritas.

These products provide access to Leed credits and confirm our commitment to sustainable building practices.

ECO-BODY MIXES

40% MINIMUM

REGENERATED RAW MATERIALS

ENERGY MANAGEMENT

HIGH EFFICIENCY STANDARDS

The Group confirms its commitment to sustainability, reducing consumption and emissions and increasing self-generation of energy. The Solignano cogeneration system has been providing around 95% of factory energy requirements since 2019, recovering residual heat and reusing it in the production cycle.

PROGRESSIVE REDUCTION

OF CO²

EMISSIONS

ATMOSPHERIC EMISSIONS

LOWER IMPACT ON AIR QUALITY

In 2022 the company set out on a path of research and innovation aimed at lowering emissions. Abk Group has introduced a system that transfers kiln fumes to the spray dryer at temperatures in excess of 600°C, destroying odorous substances, and has replaced all solvent-based adhesives used in production processes with water-based alternatives.

REDUCTION
OF MORE THAN 70%
OF ODOROUS EMISSIONS

EVOLVING TECHNOLOGIES

2013

Introduction of **Auto-Leveling** technology to facilitate the installation of 20x170 ceramic planks

2015

First **Continuous Line** for big slabs sizes 160x320 and 120x240

2019

Second **Continuous Line** for big slabs in 12 and 20 mm thicknesses

2019

Presentation of **Fullvein3D** technology for marble effect slabs with full body veining

2020

Presentation of **Cooking Surface Prime**, the exclusive invisible induction hob to combine with our ceramic slabs

2022

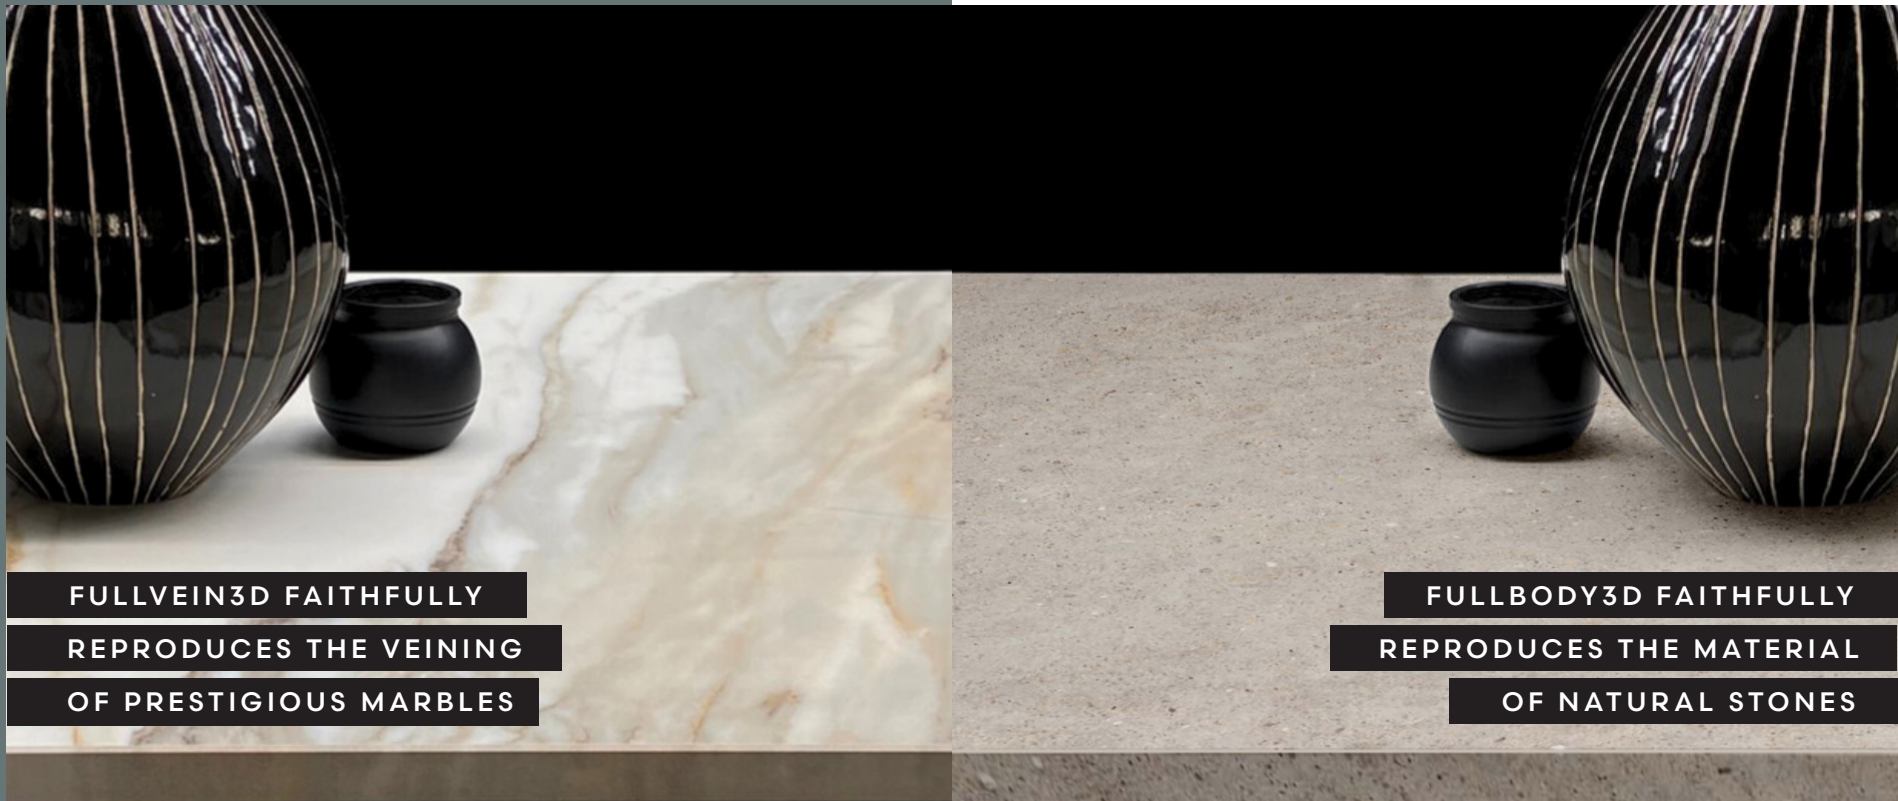

Opening of a new production line specialised in big slabs and upgrade of **Fullvein3D** technology

MATERIAL REALISM

THE THIRD CERAMIC DIMENSION

Perfect reproduction of the texture and veining of high end natural stone and marble on the surface and through the body of the slab.

Fullbody3D and Fullvein3D bring graphic continuity between slab surface and edges, also after the cutting, drilling, and finishing operations required to make the finished product.

**FULLVEIN3D FAITHFULLY
REPRODUCES THE VEINING
OF PRESTIGIOUS MARBLES**

**FULLBODY3D FAITHFULLY
REPRODUCES THE MATERIAL
OF NATURAL STONES**

TACTILE REVOLUTION

THE SENSORY EXPERIENCE OF CERAMICS

In Abk Group 3DTech refers to the advanced manufacturing techniques underpinning the creation of high-appeal 3D patterns and surfaces of surprising depth, unmistakable distinctive elements for all types of space.

P-TECH

PRACTICAL USE AND TECHNICAL PERFORMANCE

P-Tech technology improves slip resistance, maintaining engaging tactile sensations. An innovative production process combines the selection of raw materials with pressing, firing, and line-end operations. The products offer high coefficients of friction and easy cleaning, perfect for wellness and outdoor spaces, including public and commercial facilities.

INVISIBLE INDUCTION

COOKING SURFACE PRIME

The invisible induction system exalts the elegance of a cooking surface that is visually and seamlessly integrated with the other surfaces. Combined with the 20 mm big slabs, the system is the perfect choice for both domestic and professional settings.

PARTNERS OF VALUE

THE DISTRIBUTION MODEL

Historically, the group has consolidated a strategic network of partners and distributors in the retail sector. Apart from a well-established presence in the realm of finishes and bathroom furniture, in recent years the development of slabs has been accompanied by the increasing involvement of professionals from the fields of design, furnishing, and marble processing.

FLOOR & WALL

SURFACES FOR PUBLIC, COMMERCIAL, AND PRIVATE SPACES

ABK

FLAVIKER

GARDENIA&ARIANA

FLOOR & WALL

A complete and wide-ranging system of porcelain stoneware indoor and outdoor floor and wall coverings that combines refined aesthetics with superior performance.

A complete range of sizes which, apart from the 120x280 cm 6 mm thick big slabs, is mainly composed of 120x120, 60x120, 20x120, and 80x80 cm formats in 8,5 and 20 mm thicknesses.

An aesthetic compendium articulated in the most sought-after effects, from the natural beauty of marble, stone, and wood to edgy concrete and metal effect surfaces.

VERSATILE INDOOR/OUTDOOR DESIGN

COMPLETE RANGE OF SIZES AND THICKNESSES

WIDE CHOICE OF MATERIAL EFFECTS

ABK

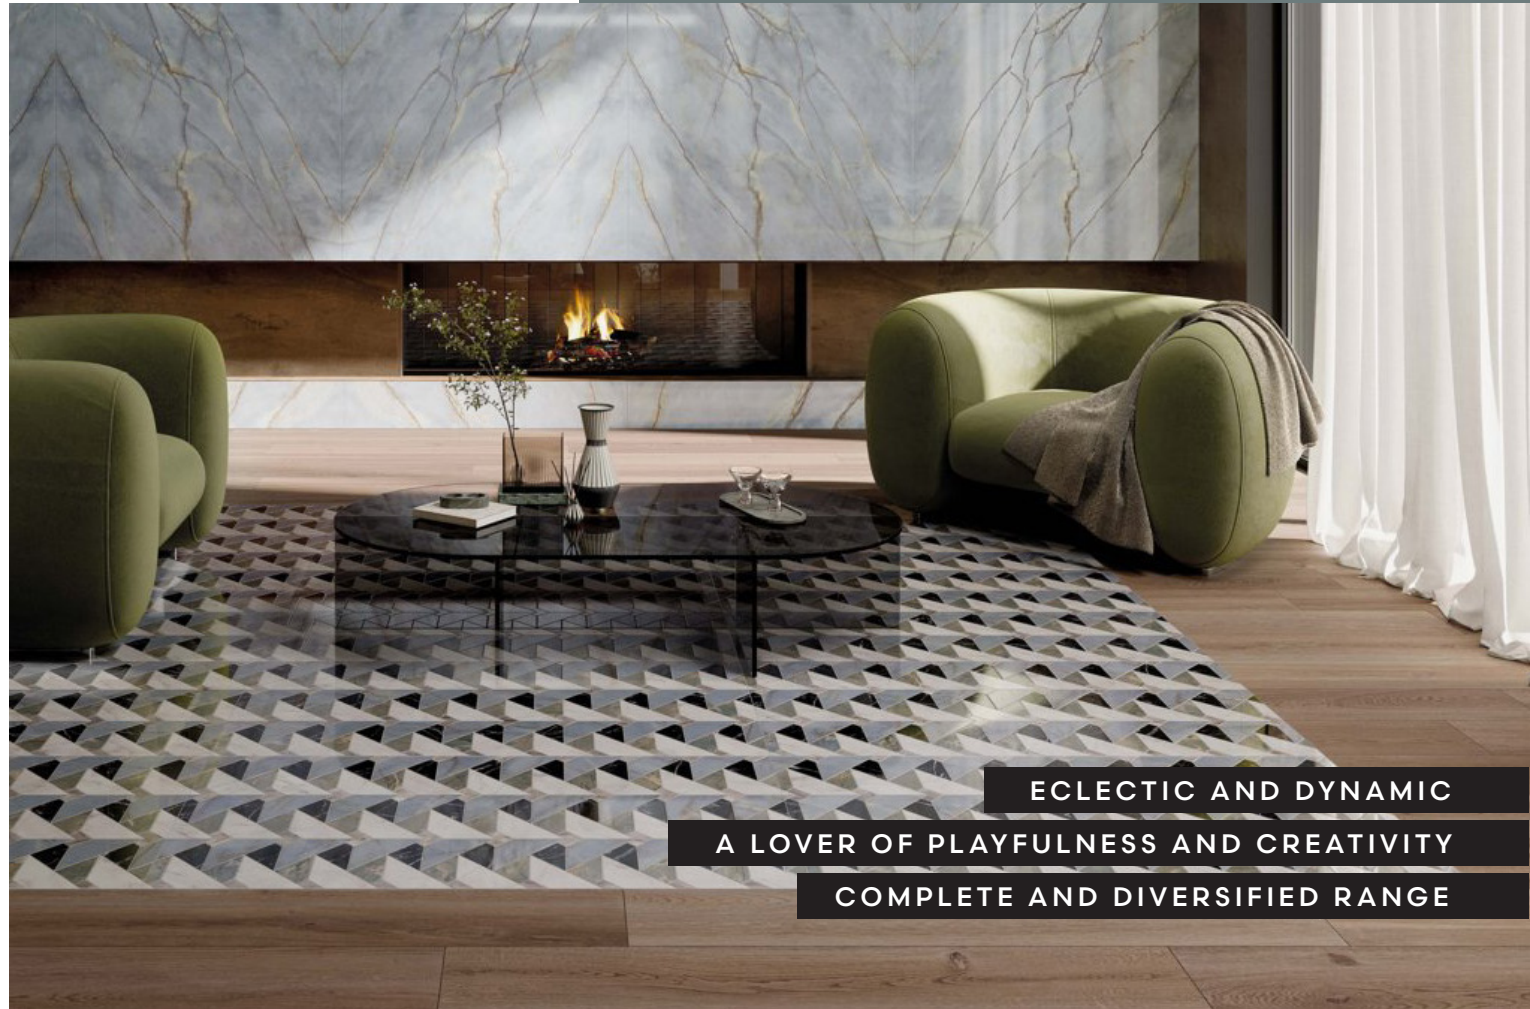

EMOZIONI IN SUPERFICIE

An unrestrained thought that transcends imposed limits, eluding conventional schematics to impart value and distinction to space.

Addressed to those willing to make a statement, to be inspired, discerning and unapologetic in the creation of unique personal spaces.

Abk's collections – an anthem of creativity: an eclectic universe, dynamic and colourful, created for designers, trend-setting outlets, and consumers seeking eye-catching solutions. Aesthetics and design coalesce in a complete system of surfaces that provide versatile answers to all project needs.

ECLECTIC AND DYNAMIC

A LOVER OF PLAYFULNESS AND CREATIVITY

COMPLETE AND DIVERSIFIED RANGE

Design is the poetry of material. Abk interfaces with designers who innovate without abandoning tradition, creating unique surfaces that combine creative vision and ceramic art. The partnership with Paola Navone Otto Studio gave rise to the Poetry House project, which transforms ceramic coverings into designer surfaces.

PARTNERSHIPS WITH LEADING DESIGNERS

DIALOGUE WITH TRENDS

FOCUS ON DECORATION

FLAVIKER

NATURAL INNOVATION

Natural inspiration that transforms space into landscape.
A bridge between the material's primordial nature and the latest technology. Flaviker is at the apex of the ceramics industry with large format surfaces dedicated to the eternal beauty of nature.

Flaviker uses the finest technology to recreate the complexity of natural surfaces with exceptional effectiveness. Amazing levels of realism in reproducing the most precious natural materials, from stone to high-end marble and rare exotic woods.

THE ETERNAL BEAUTY
OF NATURE MEETS
THE LATEST TECHNOLOGY

Innovation is evident from the completeness of the collections, designed for exceptional design versatility, and from the strategic importance of large format products able to push the perceptive boundaries of space and enhance architectural form.

UNDERSTATED AND REFINED AESTHETICS

ABSOLUTE QUALITY

SOLUTIONS FOR DESIGNERS AND ARCHITECTS

GARDENIA&ARIANA

ITALIAN TIMELESS

Refined and evocative ceramics that imbue space with elegance and receptivity. Gardenia&Ariana is the timeless expression of Italian style that rewrites the principles of refinement in a contemporary format.

High-end collections that celebrate the excellence and exquisite taste of Made in Italy products. Special attention is reserved for the sphere of bathrooms, reimagined as places devoted to wellness and harmony.

**HIGH-END RESIDENTIAL
CHIC AND REFINED BATHROOMS**

Gardenia&Ariana's products are perfect for the creation of intimate and hospitable spaces, where every detail speaks of elegance crafted to endure through time.

BIG SLABS

FORNITURE AND KITCHEN SURFACES

ABKSTONE

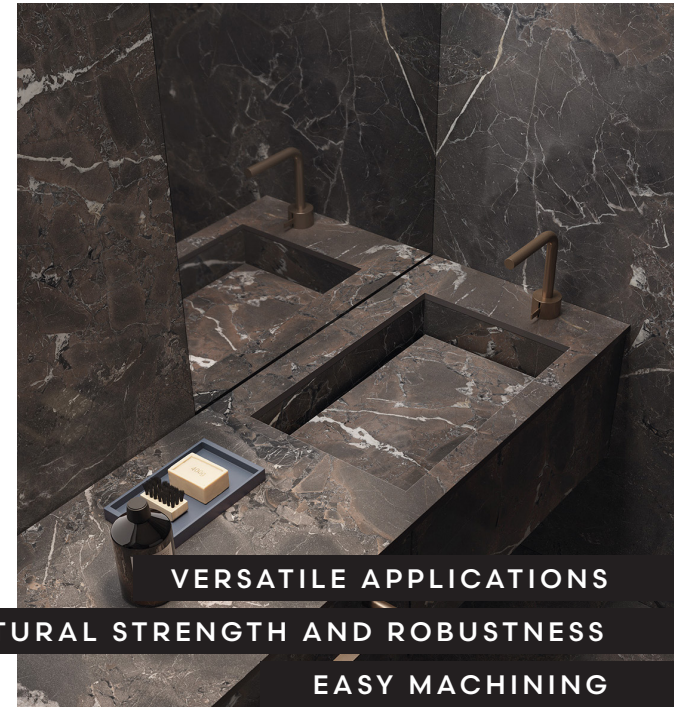

MATERIA

BIG SLABS

Abk Group manufactures 160x320 cm big slabs in thicknesses of 6, 12 and 20 mm, all distributed through the Abkstone and Materia brands. These hi-tech surfaces are industrially created reproductions of the beauty of marble, natural stone, and other materials, assuring impeccable technical performance.

VERSATILE APPLICATIONS
STRUCTURAL STRENGTH AND ROBUSTNESS
EASY MACHINING

ABKSTONE

SHAPING SURFACES

Abkstone is a system of surfaces developed from the Abk brand's graphic proposals to bring creative energy to life. The range is composed of reproductions of natural materials, concrete, and metals, with a diversified and stylishly contemporary offering.

MATERIA

BUILT TO PERFORM

Materia was developed from Flaviker's natural subjects, implementing their performance characteristics. Dedicated to designers, architects, stone fabricators, and furnishing professionals, Materia combines great looks with technical features to guarantee top performance in all installation settings.
